

Timeline G1	7 April - 23 May 2025	26 May - 4 July	7 July - 26 September	29 September - 14 Nov	17 November - 23 January	26 January - 6 March
Transdisciplinary Themes	Who We Are	Sharing the Planet	How the World Works	How We Organize Ourselves	Where We Are in Place and Time	How We Express Ourselves
	Inquiry into the nature of the self; beliefs and values; personal, physical, mental, social, and spiritual health; human relationships including families, friends, communities, and cultures ; rights and responsibilities; what it means to be human.	Inquiry into rights and responsibilities in the struggle to share finite resources with other people and other living things; communities and the relationships within and between them; access to equal opportunities; peace and conflict resolution	Inquiry into the natural world and its laws; the interaction between the natural world (physical and biological) and human societies; how humans use their understanding of scientific principles; the impact of scientific and technological advances on society and on the environment.	Inquiry into the interconnectedness of human-made systems and communities; the structure and function of organizations; societal decision-making; economic activities and their impact on humankind and the environment.	Inquiry into orientation in place and time; personal histories; homes and journeys; the discoveries, explorations and migrations of humankind; the relationship between and the interconnectedness of individuals and civilizations, from local and global perspectives.	Inquiry into the ways in which we discover and express ideas, feelings, nature, culture, beliefs and values; the ways in which we reflect on, extend and enjoy our creativity; our appreciation of the aesthetic.
G1	Unit Title: Different Families, Same Love Central Idea: Each family has its own culture that makes them unique. Lines of Inquiry: <ul style="list-style-type: none"> - Family Ancestry - Beliefs and values of a family - Interconnectedness across generations 	Unit Title: Life on Earth Central Idea: People and living things share resources, and our choices affect the balance of the natural world. Lines of Inquiry: <ul style="list-style-type: none"> - Different types of natural resources and how they are used. - The needs of people and other living things. 	Unit Title: Connection with Natural resources. Central Idea: Humans make choices on how they use Earth's natural resources. Lines of Inquiry: <ul style="list-style-type: none"> - Climate around the World - Natural Resouces - Water Cycle 	Unit Title: Systems Central Idea: Each element in our society plays an important role in our daily lives. Lines of Inquiry: <ul style="list-style-type: none"> - Types of Public Services - Importance of systems in our daily lives - Roles and responsibilities of community members and community helpers 	Unit Title: Then and Now Central Idea: Knowing history deepens our feelings for a place. Lines of Inquiry: <ul style="list-style-type: none"> - Changes in landscapes with time - History of the Japanese society - Appreciating local sites; natural and built (Educational Excursion) 	Unit Title: Expressing emotions Central Idea: Creative work is a team effort. Lines of Inquiry: <ul style="list-style-type: none"> - Forms of Art (Dance, Visual art, Music) - Elements of Art (Dance: costume, expression, patterns, beat; Music: Visual art:)
